Forecast for Friday 07 Aug 2020

Weather: Low cloud will give a risk of mist and fog overnight, particularly in the west. Low cloud will gradually lift and clear after dawn, leaving a dry day with sunny spells.

Chance of cloud free mountain/hill tops above 800m: 20% overnight with cloud bases around 450m, although some breaks in the low cloud possible in the east. 100% from the morning time as cloud bases lift.

Visibility: Generally 40km, but 2000m in mist and 100m in fog.
